

Product Name **Crème Cleanser**

DISHWASHING & KITCHEN CARE CHEMICALS

TECHNICAL BULLETIN

BENEFITS

- Highly concentrated formula
- Gentle abrasive action
- Easy rinsing formula
- Leaves surfaces sparkling clean
- Safe on all surfaces

Crème Cleanser is a white, opaque creamy liquid with ammonia and a lemon fragrance. It is designed for use in bathrooms, washrooms and kitchens. Crème Cleanser makes quick work of penetrating difficult stains such as soap scum in bathrooms and baked on soils in kitchens. Crème Cleanser is formulated for use in healthcare, institutional and commercial facilities.

Crème Cleanser rapidly penetrates and removes soap scum, body oils, rust stains, light hard water stains, common food oils and protein matter. Crème Cleanser is safe to use on all surfaces including; plastics, metals, stainless steel, ceramics, glass enamels and painted surfaces.

Crème Cleanser can be used to clean sinks and basins, showers and baths, stove and counter tops. Crème Cleanser is particularly effective in the cleaning of porcelain basins and stainless steel sinks. Crème Cleanser leaves surfaces sparkling clean.

DIRECTIONS FOR USE:

1. Pour or squeeze onto damp cloth or pour directly onto soiled surface.
2. Wipe clean and rinse.

For laminated surfaces, wipe over gently and avoid prolonged rubbing in one spot.
